Objective

The objective of this page is to communicate events of interest (rains, fires, closed streets, flooding) to the citizens of Atizapán or people who usually pass through the area, in this way they can take precautions, alternate routes, etc. From this page the administrators will be able to record these events.

Requirements

Device with internet access

Logo

The logo of the Application is the monument to democracy located in the municipality, it has the colors purple, blue and pink since they are the colors used in the logo of the municipality.

Access

Access the page link and log in on the main screen with the data of the administrator or master administrator.

Screens

Home Screen: It is the initial screen that appears when opening the page, from this screen we can log in by inserting a username and password, then “Login”, if the user is not found, an error message will appear at the bottom. You can also access the Registration screen by clicking on the "Register" button.

Registrarse

Por favor ingrese sus datos para registrarlo.

Nombre de usuario

Correo electronico

Contraseña

Register Screen: In this screen we can register a new user, however, an alert cannot be sent until the master administrator gives access.
